Installing and Using the Cisco Jabber App on your iPhone

The Cisco Jabber App allows you to receive and make calls, to and from your Union College office extension, using your mobile device.

You must contact Telecommunications first to use this app. Email helpdesk@union.edu with your college extension and mobile device (Android or iPhone) to open a ticket.

Jump to section: [Placing a Call](#) – [Call Forwarding](#) – [Transferring Calls](#)

Installing the App:

1. Open the App Store on your iPhone and search for “Cisco jabber”.

Tap the **Get** button to download.

After download is complete, tap the **Open** button to start the **Cisco Jabber Voice** app.

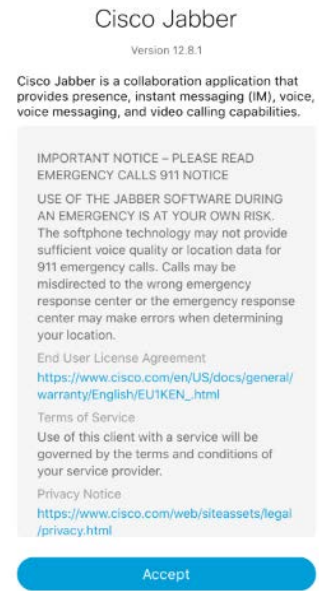

2. When the app opens, tap **Allow** to allow Jabber to send you notifications.

You may also see a prompt to allow access to your Contacts and Siri. You can choose to “**Don’t Allow**” these options.

3. Tap **Accept** to continue.

4. On the next screen, you will have to swipe to the left 2 times before you can tap the **Get Started Now** button on the bottom of the screen.

If prompted to allow access to your Microphone, you must **Allow** this for Jabber to work.

Join Meetings Faster and Easier

Now you can join your meetings right from Jabber.

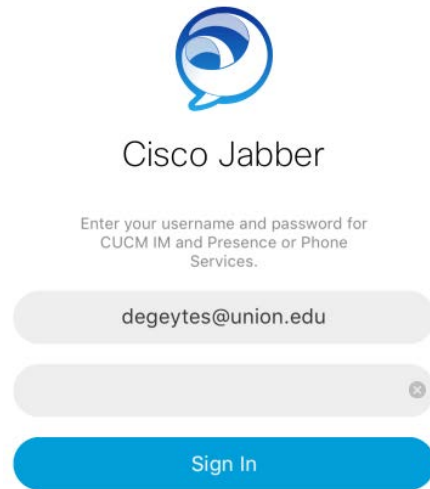

5. Enter your full Union College email address and tap **Continue**.

6. Enter your Union College password. Tap **Sign In** to continue.

Jabber has successfully been setup on your iPhone, you may be prompted to allow Jabber to use FaceID or TouchID, you can decline this option.

Placing a Call:

1. To place a call tap the Handset (Calls) icon on the bottom of the screen.

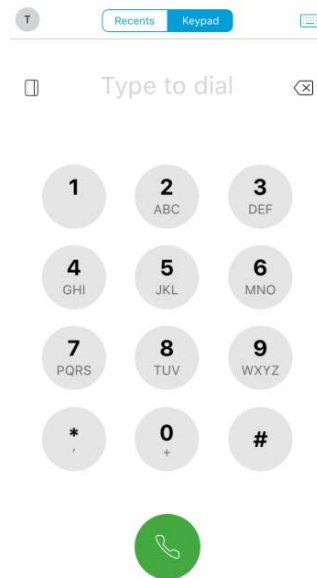

2. On the top of your screen, tap **keypad** to dial a number.

Dialing Instructions:

- Campus – 4-digit ext.
- Local call – Dial 3 + 10-digit number
- Long distance – Dial 31 + 10-digit number
- International – Dial 3011 + country code + city code + number

Dial the number and tap the green handset icon below the keypad to connect your call.

Call Forwarding:

1. To access the menu, where you can access call-forwarding options, tap the circle icon with your initials in the upper left-hand corner.

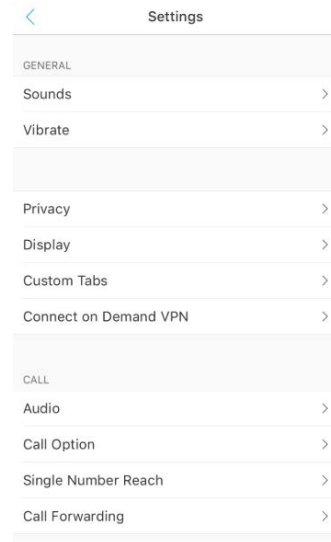

Ex. T

2. Tap **Settings**.

3. Under the Settings menu, tap **Call Forwarding** to access options.

4. Tap **New Number**.

5.
Enter the number you would like to forward all calls to. For off-campus numbers, you must dial 3 first, and 3+1 for long distance numbers.

If you would like to forward to voicemail, enter 6688.

Tap **Done** to save changes.

6.
Call forwarding is set.

To remove call forwarding, tap **Do Not Forward Calls**.

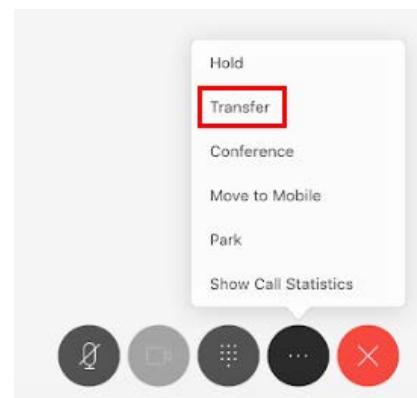

Transferring a Call:

1.
From a live connected call, on the bottom of your screen, tap the 3-dot icon.

2.
Tap **Transfer** from the pop-up menu.

Last updated: 4/2/20

3.

Tap the search field and input the number you would like to transfer the caller to.

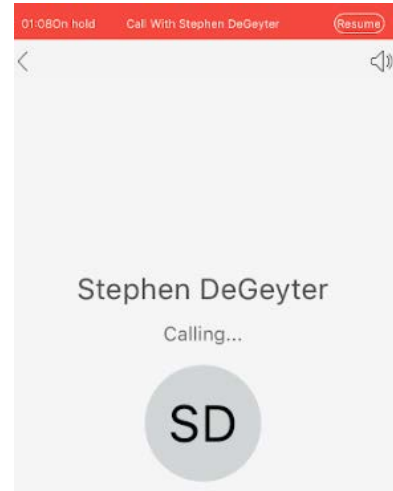

You only need the 4-digit extension for on-campus numbers. To transfer off-campus, you must dial the 3 first, or 3+1 for long distance.

Tap the green handset icon to dial the number.

4.

The original caller will be put on hold, as the number you would like to transfer to is called.

5.

You can wait until connected, to announce the transfer of the caller.

Tap on the middle of the screen, to bring up the bottom menu, and tap the Transfer icon to complete.

The caller has now been transferred.
